Support for Medical Procedures

- **Functionality for Medical Staff:** Hospital furniture like examination tables, trolleys, and medical carts provide healthcare professionals with necessary tools to perform their tasks seamlessly. This leads to a reduction in time spent on non-medical tasks, thus improving workflow.
- **Safety and Hygiene Standards:** Hospital furniture is often made from materials that are easy to clean and sterilize, ensuring high hygiene standards, which is particularly important in environments with high infection control requirements.

SmartCap is the world's first modular truck cap system. From its 5-piece stainless steel design to its seamlessly integrated Components, the SmartCap lets you build and organize your truck bed exactly how you want it. But that's just where the benefits of this revolutionary design begin.
