

LUMI GLIDE CARBON FIBER WHEELCHAIR

Heavy Duty, Foldable & Airsafe

The Carbon Fiber Folding Electric Wheelchair enhances functionality and overall independence of people with mobility issues. It is built with the strongest yet lightweight material, carbon fiber, which makes travelling much easier.

PRODUCT FEATURES

The body and frame are mainly made of carbon fiber materials.

The proportion of carbon fiber materials in the frame exceeds 90%.

High-Luminosity LED Lights for superior visibility and safety.

Start - Move forward - Move backward - Make a turn Honk the horn - Turn on the lights. All These functions can be achieved simply by pressing a button.

The ergonomic seat cushion and backrest are made of soft and comfortable materials that are also breathable.

PRODUCT SPECIFICATIONS

Main Frame Material	Carbon Fiber (Over 90% Carbon Ratio)
Total Weight (With Battery)	17 kg
Total Weight (Without Battery)	13.5 kg
Gross weight	20 kg
Maximum Load Capacity	100 kg
Overall Dimensions	95.5 × 61 × 90.5 cm
Folded Dimensions	70 × 33 × 60 cm
Seat Size	Width 45.3 cm, Depth 42 cm
Drive Motors	24 V, 150 W Dual Brushless Motors
Battery Type & Capacity	10Ah Lithium Battery
Controller Unit	Smart Brushless LCD Digital Controller
Wheel Configuration	7" Front Castors / 8.5" Rear Drive Wheels
Maximum Driving Range	Upto 12 km per Charge
Top Speed	4.5 km/h
Turning Radius	0.9 m
Charging Time	5-6 hours
Package Carton Dimensions	63 × 35 × 80 cm
International Certifications	CE, ISO 13485, ISO 7176 Crash Tested
